Here's a quick reminder of some of the preventive actions to help prevent the spread of respiratory viruses.

- Wear a mask if one has respiratory symptoms such as a cough or runny nose;
- Cover your mouth with a tissue paper when coughing or sneezing, and dispose the soiled tissue paper in the rubbish bin immediately;
- Practise frequent hand-washing with soap;
- Avoid contact with live animals including poultry and birds, and consumption of raw and under-cooked meats;
- Avoid crowded places and contact with individuals who are unwell or showing signs of illness; and
- Seek medical attention promptly if one is feeling unwell
